Memorandum to Mr. R. L. Palmer

Subject: Stretch Proposal to AEC, Los Alamos

At a meeting in Poughkeepsie, Thursday, September 8, it was agreed by Dr. C. C. Hurd, Mr. J. A. Haddad and Mr. S. W. Dunwell that the Stretch proposal to AEC, Los Alamos would be handled in the following manner:

1) Dr. Hurd has arranged for presentation of the IBM proposal at Los Alamos, Tuesday, September 20. The presentation will be made by the following IBM people:

Mr. S. W. Dunwell
Dr. L. P. Hunter
Dr. C. C. Hurd

2) A number of Los Alamos people will be in Poughkeepsie attending a 704 class at the time of our presentation. There appears to be no way to avoid this without delaying our presentation at least a week.

Consequently, arrangements will be made to present the machine to the Los Alamos people in Poughkeepsie on the same date, but in a less formal manner. This will be handled by Dr. G. M. Amdahl, Dr. W. Bouricius, and Mr. J. E. Griffith.

3. Dr. Nicholas Metropolis of Los Alamos is speaking at the Poughkeepsie Engineering Seminar, Monday, September 12. Dr. Metropolis is arriving at 11:30 a. m. Careful plans are being made to make his day as profitable as possible. The schedule for the day has been issued by Mr. R. W. Wolslegel. Dr. Metropolis will be accompanied throughout the day by Dr. C. C. Hurd and Mr. S. W. Dunwell.

4) A draft of the Stretch Proposal is being circulated.

S. W. Dunwell
