S. G. Campbell - DSD, Poughkeepsie
S. W. Dunwell - DSD, Poughkeepsie
M. K. Haynes - CHQ
R. A. Henle - DSD, Poughkeepsie
W. B. Ittner - Research, Poughkeepsie
H. G. Kolsky - FSD, Rockville
C. J. Kraus - FSD, Kingston
A. L. Leiner - Research, Mohansic
E. W. Pugh - Research, Yorktown
J. L. Walsh - DSD, Poughkeepsie

SUBJECT: Stretch and Super - Stretch

This is to confirm arrangements for an ad-hoc ITL meeting on the above subject with the above attendees to take place Thursday, October 27, 9:30 A.M., in the Conference Room, Delapenha House, Poughkeepsie.

The meeting will be an informal one, but we should probably include such subjects as:

Esaki diodes
Transistors
Cryogenics
Magnetics
External storage
Machine organization
Application areas
DSD's future plans in the Stretch area
DSD's future plans for large scientific computers other than Stretch
Livermore status
Other potential customers
RCA and other competition

and any other pertinent subject you may suggest.

W. Buchholz
Systems Consultant
