Wed PM
Aug 21, 1957

Wed AM - Roger talk to Red, Dura, Fred + J. Cocke on Look Ahead simulation

Same attendance

Worlton - Laplacian ($\nabla^2\phi = 0$) by two methods:

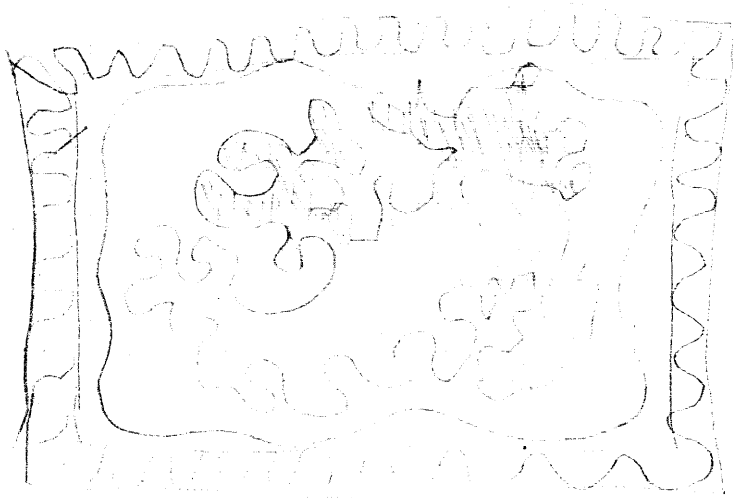

a) U, V operator

b) Second order Richardson method

(See coding sheets)

Brooks - Discussion of VFL techniques

1-

Index Format Meeting

Blaauw

Ingram

Griffel

Walton

Wells

Johnston

Limit	Count
Unknown no. of moves	Fixed no. of moves
Fixed Boundary	Unknown boundary

Write paper on intensive and extensive interpretation of indexing on data and control statements (C. statements are always(?) intensive?)
