June 1, '57

Talk with Hank Head at Mansion Street.

Serial Cd Rdr

STR → Incremental tape drive
or Cd punch.

adapters etc, very expensive.

Line speed -- main limitation.

600 .. 1500 bits/sec.

failures — are not random --

caused by systematic — lightning
— humidity
— linesmen, etc.

Transmission Code now being used:
4 out of 8 code

synchronism done by modulating
leading edge ...?

Line Rates:

Toll line 600 bits/sec (75 characters/sec) } AT+T lines

Leased line 1000 bits/sec

Telegraph line ~250 bits/sec

higher quality leased lines — higher rates

are available on custom basis eg. SAGE

lines 1500 bits/sec (188 cps)

(in 8 megacycle range)

co-ax lines: $65 per month per mile

$35 per month mile — off hours —

(300 char/sec)

AT+T will go up to 2400 bits/sec

Hoffner (?) on phase modulation

Research San Jose. (at SEPD - Hopner, Markee, [illegible])

⟹ call Virgil Vaughn at AT+T

(very accurate) data Transmission

Ref { Don Bacon / or Bil [illegible]

- probably commercial Cos will tend to go to *many* *cheap* *devices*. - card-a-phones, etc.

---

card-a-phone: will be announced Oct 1.

now can do 10-15 characters per sec over *any* AT&T line.

uses 2 of 8 code now.

error detecting only.

- presently uses 22 col stubs.

20 cols minus identification characters. eg. 3 characters identify means 20 - 3 = 17 info. bits.

Papertape - Transceiver now 20 cps -

Soroban - high speed papertape ...

present IBM Reader 500 characters/sec ← 8 7 real time [illegible]

(2000 cards/min sorter now)

another: intermediate system. alphanumeric
024 → 024 80 cols. cds.
(11 cards per min) at 18 cps. now over lines.
- can be used as regular 024
off hours
~ $100 per mo. rental. incl 024.
MES attachment $50 per mo.
— Transmitter only now. — receiver
later? (announce next year?

Incremental tape drive:
can go 175 cps.
STR can match this & one can
get line to match it.

---

can go card to tape then
~~at the tapes~~ incremental tape transmission.

Teletype: 6 characters per wd, 100 wds/min
5 to 8 channel tapes.
only $55 per month rental. & hard to beat
